

# Support the Oaks & Olives

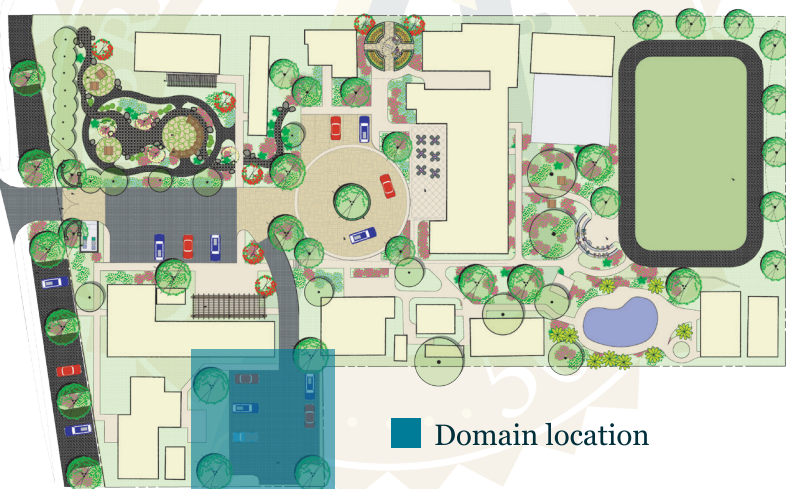

## Oaks & Olives domain components:

- Demolishing existing walls, paving and vegetation
- Installing new asphalt
- Planting shrubs and ground covers
- Planting 4 mature trees (24" box)
- Installing new irrigation
- Value: \$50,000

## Help Us Set Down Roots

This domain focuses on reconfiguring access to a parking lot in order to accommodate a patio and covering structure (see Friendly Shelter domain) as well as improving the layout of the lot itself to facilitate safer vehicle parking. The reconfiguration will allow for planting large oak and olive trees, which will provide shade for parked cars as well as privacy from the neighboring property. The reconfigured lot will improve parking lot safety.
